Interest accrues daily based on past due balances. Interest on your bill statement is based on the bill date. Additional interest will be due from that date until payment is received.

**Customer Service Charge:** The customer service charges listed above are based on the fact that there are various costs to the Water Department to service customers, whether or not a metered customer uses any water. The customer service charge does not include a charge for water usage. The charge is based on expenses for meter maintenance, meter readings, billing, collection, and administrative expenses. Each metered customer on the system is responsible for paying a share of these expenses.
