

Recent Reports of People Posing as Water Department Workers

Recent incidents of individuals posing as water department employees to gain access to homes for illicit purposes have been reported in area towns of Wilmington, Dracut, Stoughton, and Plainville, respectively.

The Town of Westford Water Department employees wear a clearly identifiable Water Department patch on their clothing, and will provide an official town issued identification card, as requested. In addition, we operate clearly marked, town-owned vehicles, bearing the official town seal and blue state license plates. We do not operate unmarked vehicles.

If you are unsure on whether a person is a Westford Water Department employee, please do not hesitate to contact us at 978-692-5529 and we will immediately verify the information
